INFRATECH SOLUTIONS
www.infratechsolutionsllc.com

The 10mm AHD P10 is a compact and versatile tool for inspecting pipes and other tight spaces. With its high-definition camera and portable design, it allows for easy and accurate viewing of potential issues within pipes for efficient maintenance and repairs.

- 10mm HD Stainless Steel Camera
- 10" LCD IP5 Display, 1020 X 780 with Sun Shield
- 4 pcs high intensity white LED
- Video/photo capability

P10 Mini Push

The P25 is a versatile tool for inspecting pipes and drains. With a manual focus function, it allows for precise and accurate viewing of hard-to-reach areas, making it an essential device for any professional plumber or technician.

- Front HD zoom camera system, 360° axial, 270° horizontal rotation
- Compact, lightweight, portable.
- 13" bright controller display with sunshield
- Built-in reporting capability

P25 HD Pan & Tilt

INFRATECH SOLUTIONS
www.infratechsolutionsllc.com

The P4030 is a versatile tool for inspecting pipes and drains. With two cable reels, it allows access to ultra small and larger diameter environments with a single device. Interchangeable camera heads make this an indispensable tool for professionals.

- Multi- purpose workhorse with dual cable reels
- Compact, lightweight, portable.
- 13" bright controller display with sunshield
- Built-in reporting capability

P4030 Dual Reel

The P50B Pan & Tilt is a push camera suited for inspecting sewers, drains, vessels, pipe walls, and tanks. Pipe diameter range: 4" to 12" And multiple cable length and diameter options.

- Front HD zoom camera system, 360° axial, 270° horizontal rotation
- Super strong auxiliary light source for clearer and brighter picture
- 720p pan 180° and tilt 360° camera head
- 720p auto leveling camera head

P50 HD Pan & Tilt

INFRATECH SOLUTIONS
www.infratechsolutionsllc.com

Weighing less than 10 lbs. and measuring just 20 × 4 × 3.5 in, the S100 is compact enough to operate in pipe diameters from 4" to 24". From setup to inspection to cable recovery, the entire process can be completed by one person, reducing labor demands and saving valuable time.

- Smart high definition 2-mega-pixel digital front view camera with pan and tilt, 10x electronic zoom
- 13" Rugged Industrial Computer
- Anti-overturning, modular design. Crisp display with on screen monitoring.
- Built-in reporting software. Also compatible with 3rd party (i.e. WINCAN)

S100 Mini Crawler

The S150 is equipped with digital HD camera heads with independently sealed chambers. It is powered by front servo drive and high-torque DC brushless gear motor. It is good for pipe diameter 6" to 48".

- Front HD zoom camera system, 360° axial, 270° horizontal rotation
- Super strong auxiliary light source for clearer and brighter picture
- 720p pan 180° and tilt 360° camera head
- 720p auto leveling camera head
